## **PACKAGING SOLUTIONS THAT PERFORM**

### **About RotoMotion Technology:**

RotoMotion Technology (**RMT**) is a full service custom packaging machinery fabricator specializing in design, integration and installation of packaging machines and systems. RMT's approach is to combine strong packaging technical skills, knowledge and hands on experience to supply **practical and affordable** solutions that perform given each unique packaging machinery application. RMT also offers high quality packaging machinery manufactured by our Manufacturing Partners, Switchback Group and ActionPac Scales & Automation, respectively. RMT is an International Distributer for these fine companies, and together we not only offer "End Of Line" Packaging Solutions, but "Complete Line Solutions" for your Packaging Requirements.

RMT is an organization that thrives on all levels of detail required to provide highly effective packaging machinery solutions to its Customers. RMT reviews all the factors that must be considered in order to provide an efficient and cost effective packaging line. These factors include detailed evaluation of the level of automation required given the project scope, equipment specifications, regulatory requirements, flexibility, and future expandability. Additional highly important factors that are considered are the ergonomic design of the packaging line as well as operator skill level and training that will be required.

### **RMT Offers The Following Packaging Equipment And Systems:**

- RMT Patent Pending rotary agitator bar case settler with stepper motor or VFD drive options, and other options such as; PLC controls for special indexing applications and case load/settling for Scale integration applications, case taping and coding. Vibratory platen style settlers with eccentric motors are also available.
- Servo operated Smart Drop & Indexing Loaders to provide intermittent and continuous motion cartoners a high performance method of infeed bucket loading.
- Custom counting-orienting-loading units for long ridged products like frozen bread sticks, pizza loafs, French bread loafs, etc...
- Case Checkweighers that have an accuracy of +/- 1.0 Grams.
- Intermittent Motion & Continuous Motion Auto Cartoners with Stainless and Wash Down Options, either high quality refurbished, or provided by Switchback Group.
- Top Load Case Packers with or without RSC style case blank magazine that utilize State Of The Art ELAU 2/3 axis robots and ELAU Servos and ELAU controllers, provided by Switchback Group.
- Wraparound Case & End Load Case Packers, either high quality refurbished machines or, provided by Switchback Group.
- Custom Conveyance Systems (Floating Tray/Pallet, Merging, Diverging, Low-Back Pressure Conveying, etc...) with either Powder Coated or Stainless Construction.
- Custom Linear Scale Systems, Product Feed Systems, & Depositors, provided by ActionPac Scales and Automation.

### **Company Profile And Mission:**

RMT is a new company, established 2006, with a long standing solid foundation within the fabric of the company. RMT is a registered LLC in Idaho State and machinery is taxed as an Idaho Company accordingly.

## **PACKAGING SOLUTIONS THAT PERFORM**

RMT's exclusive partner for design and manufacturing is John Zweigle of Design Services. John has approximately twenty-two (22) years experience as Head Designer And Engineering Director for several packaging machinery companies located in California. Matt Johnson, the RMT principal, has ten (10) years experience as a Project Manager, three (3) years experience as a Fluid Power Engineer, two (2) year experience as a Utility Systems Designer, and six (6) years experience in Operations and Maintenance. All twenty-one (21) years experience is within the Food & Beverage Industries.

Matt and John have put their talents together to develop some innovative solutions to improve upon current methods in the packaging industry. RotoMotion Technology is committed to performing at high levels of efficiency in tough applications without accepting the status quo. RMT is committed to uncompromising customer satisfaction, and we will pursue this objective while upholding the highest standards of integrity, honesty, and fairness.

### **Companies Served That Are Using Equipment Designed & Manufactured By The Principal RMT Owner/s:**

- Dow Chemical Company - California Facilities
- General Mills - Chicago, Illinois
- Marie Callender's Wholesale - Riverside, California
- Fresh Express - Salinas, California
- Land O Lakes - California Facility
- Kelly Moore Paint - Texas Facility
- Fox Tail Foods - North Carolina Facility
- Kolmar Laboratories - New Jersey Facility
- The Scotts Company - Marysville, Ohio
- Miracle-Gro Corporation - Ohio Facilities
- Mrs. Rios Corn Products - San Angelo, Texas
- Ateeco Inc. (Mrs. T's Pierogies) - Shenandoah, Pennsylvania
- Gardenburger Inc. - Clearfield, Utah
- Diatek Corporation - San Diego, California
- Humboldt Creamery Association - Fortuna, California
- Natures Path Food Service Sales - St. Charles, Illinois
- Alaska Milk Company - Manila, Philippines
- Kruger Foods Inc. - Stockton, California
- California Pretzel Company - Visalia, California
- Caruthers Raison - Caruthers, California

### **Companies Served By The Principal RMT Owner/s In The Project Management And/Or Engineering Role:**

Amalgamated Sugar Company, Americold, Ateeco (Mrs. T's Pierogies), Berberian Nut Company, Carboline Protective Coatings, Centennial, COSTCO Meat Division, CTI Foods, Dickinson Frozen Foods, Domino Sugar, Don Miguel, Foremost Farms, Foster Farms, Fresh Express, Gardenburger Inc., Green Garden Foods Products, Humboldt Creamery, J.R. Simplot, Kemps Dairy, Keystone Foods (Equity Group), Kettle Foods, King & Prince Seafood, Kohler Mix Specialties, Kraft General Foods, Marigold Foods, McCain Foods, Morning Star, Multifoods, Natures Path Food Service Sales, Nestle' Foods, Nulaid Foods,

## **PACKAGING SOLUTIONS THAT PERFORM**

New Foods Classics, Heinz Frozen Food Co., Reser's Fine Foods, Rustoleum Paint, Saputo Cheese Division, Select Onion Co., SSI Food Service, Starbucks, Sunny Fresh Foods, Sunshine Dairy Foods, Super Store Industries, Swiss Valley Farms, Tillamook Cheese, United Signature Foods, Wahoo Appetizers, Westfarm Dairy, Weyerhaeuser Corrugate Fiber Division.

### **Training Options:**

Training can be handled a number of different ways. In the event the equipment has been installed at the customer's facility, a representative from RMT can be on the door-step within 24 hours.

In the event the equipment installed is the same as, or closely related to, a model presently on the RMT factory floor the training can be performed on-sight at the RMT facility. This offers customers the opportunity to be involved with more than one department and the services available to his company. The training can cover a larger spectrum of technology and components in this manner. RMT facility training can also be provided to customers while their equipment is on the floor prior to shipment if required.

Training at the customers facility after installation, which is the most common course of training, is the most typical and preferred method. A larger number of operators can be trained at production speed, and also several shifts can be trained over a 3-5 day span.

Whatever the method may be, training is our mission at RotoMotion Technology.

### **Services Provided By RMT:**

- Conceptual Machinery Design
- Packaging System (Multiple Integrated RMT Machines) Design
- Machine Programming
- Custom Manufacturing
- Technical (Operator & Maintenance) Manuals
- Equipment Commissioning
- Operator And Maintenance Training
- Field Service Work
- Part Supply and Distribution
